Purpose

This package is an organized website-ready edition of the Reconstructography founding materials already developed. It is not a final academic edition. Its purpose is to give Airo clear, authoritative source documents for reconstructography.com.

Core instruction for Airo

Use these documents as the source of truth for page creation. Do not invent doctrine. Do not compress constitutional language into vague marketing language. The homepage may summarize the ideas, but the full documents should be available as readable pages or downloadable PDFs.

Recommended site hierarchy

Home -> Manifesto -> Constitution & Canon -> Founder Vision -> Methodology -> EBCR -> Software Platform -> Michael Rees Foundation -> Research & Publications -> Founding Documents Library.

Authority hierarchy

1. Constitution & Canon governs the discipline.
2. Founder Vision & Experience Principles governs emotional experience, UX culture, and trust.
3. Methodology governs how reconstruction works.
4. Foundation Pack and Engineering documents govern implementation.
5. Idea Vault preserves future concepts without making them doctrine.
